B How long have you known your child?

C How old is your child?

Questions to explore with caregivers

1 Please describe your child, what can you tell me about him or her ...

2 WMP is a simple way for parents or carers to help their baby or young child through a focus on play. Can you think of one or two things that you hope Watch me Play will help you or your child with?

2i Goal 1:

A What do you hope to see change or development in?

B Where would you rate you or your child now re this goal?

This doesn't happen = 1—2—3—4—5—6—7—8—9—10 = This happens all the time

2ii Goal 2:

A What do you hope to see change or development in?

B Where would you rate you or your child now re this goal?

This doesn't happen = 1—2—3—4—5—6—7—8—9—10 = This happens all the time

3 Thinking about your routines and about how your baby or child plays at the moment, is there anything that you think could make it difficult for you and your baby or child to do WMP?
